1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Smith on 05/23/2006.

The application has been amended as follows:

In Claim 16, line 1, "of claim 17" has been changed to --of claim 14--.

In Claim 21, line 1, "of claim 12" has been changed to --of claim 14--.

### **REASONS FOR ALLOWANCE**

2. Claims 1 – 26 and 30 - 43 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest, in combination with the claimed elements for Claim 1 a switch mechanism for use in a power tool having first and second switches, wherein the second switch positioned across a handle, of the switch mechanism, in opposite direction of the first switch, with first and second abutments extending from the first and second switches "in generally toward one another in generally opposed parallel relationship, said second abutment being displaceable by movement of said second switch between a first position in which said first and second abutments are in end to end contact when said second switch is in said neutral position, and second and third positions in which said first and second

abutments are in side to side contact when said second switch is in a position other than said neutral position." and claim 26 recites a second switch having "neutral position in which said dynamic brake is engaged" and "said switches being constrained such that said first switch can move to said ON position only when said second switch is not in said neutral position and said second switch can move to said neutral position only when said first switch is in OFF position. " these limitations in combination with the claimed elements defines the claim over the art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
